

MINI BRIO

POWERFUL MINI SPOTLIGHT
AND CUSTOMIZABLE!

HIGH-END PROJECTOR

With Mini BRiO, a spotlight as powerful as a standard spotlight, you can combine luminous power (up to 1300 lm in white) with discreet design. Mini BRiO is the ideal solution for both construction and renovation projects.

CUSTOMIZABLE

The Mini BRiO offers a wide range of customization options! From light color and wattage to choice of bezels, take advantage of a 100% customizable headlamp.

DISCONNECTABLE VERSION

Mini BRiO comes in a disconnectable version! Ideal for retrofitting existing screw-in spotlights, it allows you to replace defective screw-in spotlights while keeping the existing cable.

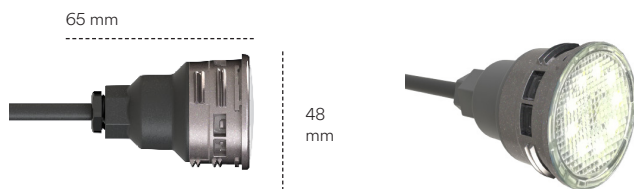

A MINI-PROJECTOR AS POWERFUL AS A STANDARD PROJECTOR

Thanks to new LED technologies combined with recent developments in heat dissipation, the Mini-BRiO can emit up to 1300 lumens in cool white or warm white monochrome lighting.

Thanks to this power, the Mini-BRiO 2 is as powerful as some standard spotlights on the market, while being more discreet in the pool wall.

A COMPLETE PACKAGE DESIGNED FOR PROFESSIONALS

When you select a Mini-BRiO, opt for a feed-through designed for the spotlight, with the cover already supplied! What's more, thanks to the gasket installed in the wall feed-through, an initial seal is made at the back of the spotlight, preventing water from rising up into the sheath.

This reduces the risk of freezing. For concrete pools, you can opt for a stainless steel cover with an extra-flat design.

Ultra-powerful LED mini floodlight available in various wattages

3 lighting options: cool white warm white and multicolor RGB+W

Switch version: disconnectable mini spotlight ideal for renovation work
